## Visual Description Guide to Ham Green House

(A walk through video is coming very soon!)

### Image 1: Ham Green House and Wildflower Meadow

A large cream-coloured Georgian house sits in the distance beyond an open meadow filled with long grass and white wildflowers. The building is three storeys high with large sash windows and curved architectural details. Mature trees frame both sides of the view, creating a sense of shelter and calm. The grounds feel spacious and rural, with plenty of open sky above. The atmosphere is peaceful and restorative.

---

### Image 2: Rose Garden Walkway

A straight garden path runs beneath a wooden pergola covered in climbing pink roses. Dense greenery and flowering plants surround the path on both sides. In the distance, a small garden pavilion sits at the end of the walkway. The route feels enclosed, colourful and sheltered, offering a quieter space for reflection and conversation.

---

**Image 3: Main Gathering Space**

A large light-filled room with high ceilings, exposed timber beams and wooden floors. Several round tables are spaced around the room, each surrounded by chairs. Large windows on two sides allow natural daylight to flood the space and provide views of the gardens outside. The room feels airy, welcoming and spacious, with plenty of room for movement and wheelchair access.

*This is one of the spaces where talks, discussions and activities may take place during Where We Land.*

**Image 4: Dining Room**

A bright dining space with wooden tables and upholstered chairs arranged throughout the room. Large windows allow natural light to enter from several directions. The décor is calm and understated, with soft green and neutral tones. The atmosphere feels relaxed and comfortable.

*Lunch and refreshments will be served in spaces like this during the event.*

**Image 5: Arrival and Parking Area**

A modern cream-coloured building with a central entrance and large windows. An accessible car park sits directly in front of the building, with marked parking bays close to the entrance. Trees and shrubs surround the area. The approach is level and open, making wayfinding straightforward.

*Many visitors will arrive at Ham Green House through this entrance area.*

---

**Image 6: Aerial View of Ham Green House Grounds**

A view from above shows Ham Green House surrounded by extensive gardens, lawns and mature trees. The building sits within several acres of landscaped grounds. Beyond the gardens are rolling fields and countryside stretching into the distance. Paths connect different areas of the site, including lawns, gardens and outdoor gathering spaces.

The setting feels secluded, green and peaceful, offering a sense of retreat from busy urban environments.
